

Add an adhesive backing to photographs, paper embellishments, canvas and more.

MAKE-IT-STICKI™

- ~ Easy to use with Large Photos
- ~ Make Matting Frames for Memory Books
- ~ It's Easy to Make Difficult Shapes Sticky!

Print your photograph or Graphic Image with your Color Ink Jet printer or use a photo from the photo finisher.

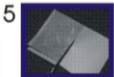

Separate first liner from the "Make-it-Sticki" sheet

Place Photo, printed side up, onto the exposed sticky surface.

Sandwich the photograph between the liner and the a "Make-it-Sticki" Sheet. RUB BRISKLY over the top. This will caused the adhesive to bond to the back side of the photograph.

Holding the liner sheet in place, cut around the image.

Remove the Top Liner Sheet.

Turn over photograph. Remove the back liner exposing the adhesive that has been transferred to the back side of the photograph.

You can now bond your photograph to a Memory Book Page or to another smooth surface.
